Plans Announced for Barry Fiber Project

Adams Fiber proudly announces plans to deploy fiber technology in Barry. With this innovative service, Barry residents can expect ultra high-speed Internet access which will allow them to experience more robust Internet and voice services.

Adams first began their fiber-to-the-home initiative in 2007 serving rural areas. Two Adams Fiberhoods in Quincy are currently enjoying ultra fast Internet from Adams and several additional Fiberhoods are presently under construction. Lakeshore Hills is also slated for construction this fall. Construction just wrapped up in Perry, and installations are beginning there soon. Bowen residents recently completed the installation phase and are now experiencing the fastest Internet available.

Adams Fiber has Internet packages starting at \$49.95 and suggests residents take advantage of the limited time opportunity to Lock your Price in for Life by pre-registering to save \$120 per year. Simply visit FollowTheFiber.net or call 217-214-3423 to sign-up for this service. Residents ready to meet their current and future Internet speed needs may also want to take note of Adams incredible \$99.95 Gigabit package.

Adams has over 60 years of experience in the telecommunications industry, providing telephone and broadband Internet services in places where there was previously little or no coverage. The company is well known for business communication, Internet offerings and for investing in communities to further economic development.
